Number of residents	55	55	46

Research resident training

The research residency system was started in April 2001 to train young researchers in the field of basic and applied cancer researches at our research institute.

	2016 fiscal year	2017 fiscal year	2018 fiscal year
Number of research residents	10	8	6

Training of technical personnel for medical treatments

The shortage of specialized technical personnel for the treatment of cancer is an obstacle in the promotion of cancer control programs. To solve this problem, since 1966, full scale training has been provided.

The accomplishment of this Center in this area has gained an international reputation and applicants for this training course now come from various countries as well as from all over Japan.

	1966-2018 fiscal years	2016 fiscal year	2017 fiscal year	2018 fiscal year
Total	5,713	66	62	70
Physicians	3,599	36	44	43
