Research resident training

The research residency system was started in April 2001 to train young researchers in the field of basic and applied cancer researches at our research institute.

	2019 fiscal year	2020 fiscal year	2021 fiscal year
Number of research residents	9	8	8

Training of technical personnel for medical treatments

The shortage of specialized technical personnel for the treatment of cancer is an obstacle in the promotion of cancer control programs. To solve this problem, since 1966, full scale training has been provided.

The accomplishment of this Center in this area has gained an international reputation and applicants for this training course now come from various countries as well as from all over Japan.

	1966-2021 fiscal years	2019 fiscal year	2020 fiscal year	2021 fiscal year
Total	5,926	60	83	70
Physicians	3,713	33	39	42
Radiology technicians	239	0	7	4
Clinical laboratory technicians	617	4	2	1
Nurses	322	1	3	1
Others	1,035	22	32	22

Budget for the Cancer Center

(Unit: thousand yen)
