Number of resident	40	43	43

### Research resident training

The research residency system was started in April 2001 to train young researchers in the field of basic and applied cancer researches at our research institute.

	2020 fiscal year	2021 fiscal year	2022 fiscal year
Number of research residents	8	8	11

### Training of technical personnel for medical treatments

The shortage of specialized technical personnel for the treatment of cancer is an obstacle in the promotion of cancer control programs. To solve this problem, since 1966, full scale training has been provided.

The accomplishment of this Center in this area has gained an international reputation and applicants for this training course now come from various countries as well as from all over Japan.

	1966-2022 fiscal years	2020 fiscal years	2021 fiscal years	2022 fiscal years
Total	6,023	83	70	97
Physicians	3,768	39	42	55
Radiology technicians	246	7	4	7
Clinical laboratory technicians	618	2	1	1
Nurses	325	3	1	3
Others	1,066	32	22	31

### Budget for the Cancer Center
